**Our Candidate is Democracy**

# Facebook Protect

# Advanced Protection Program (APP)

APP is Google's strongest security offering, designed to protect users who face an elevated risk of sophisticated and highly-targeted online attacks.

Activists

Politicians &  
Campaign teams

Journalists

Business  
executives

GSuite & Cloud  
Identity

# Added Security for the Election Season

---

To request additional protection from Google by letting them know your accounts are election-related: use the form you can find at

**[Goo.gle/enhanced-security](https://services.google.com/fb/forms/enhanced-security/)**

# Microsoft Defending Democracy

Microsoft Office Windows Surface Xbox Deals Support

All Microsoft Search

## Microsoft AccountGuard

Microsoft AccountGuard is a new security service offered at no additional cost to customers in the political space. The service is designed to help these highly targeted customers protect themselves from cybersecurity threats.
